

LIGERA

— R A N G E —

Configure your light, effortlessly

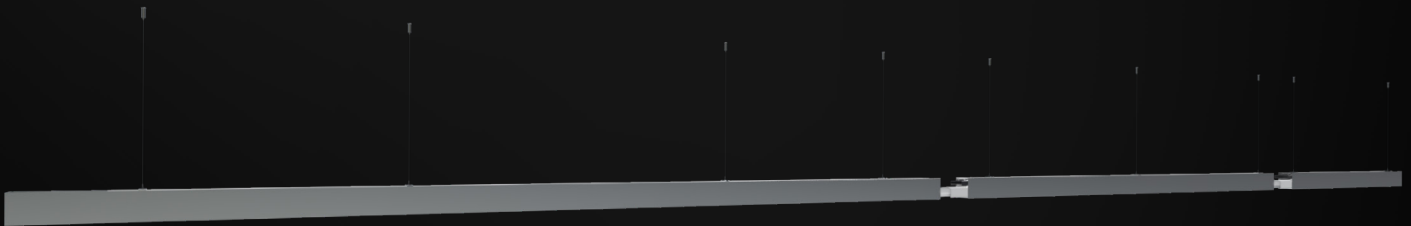

LIGERA

Striking in its simplicity, Ligera represents the ultimate combination of versatility, quality and affordability. Combine a practical array of modular lengths and various mounting solutions to fit any project, whether it's essential task lighting or long, seamless linear. Ligera offers the seamless beauty and intelligent technology features of our premium range with pre-cut, interchangeable lengths that get the job done for less.

Free to configure

Designed to be modular, Ligera offers a modest price, whether a single working module or continuous linear run.

Configure and combine single Ligera modular lengths from **843mm to 3372mm** and achieve continuous runs to suit any space*.

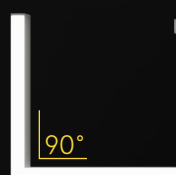

*See datasheet table for full breakdown
*Dimensions calculated at 280 mm increments

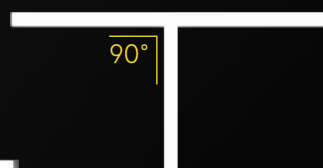

Based on your request, these modules will act as the **start, join, and end pieces**.

You can design your lighting flexibly with our mitre modules, available in **L-Shape, T-Shape, and Wide-L** options.

Connect these mitre modules with each other or with the linear modules.

Ligera's modular lengths are designed specifically to be installed with ease, while eliminating light leakage at the joins. **Our mConnect™** system makes assembly, installation and maintenance as easy as 1, 2, 3.

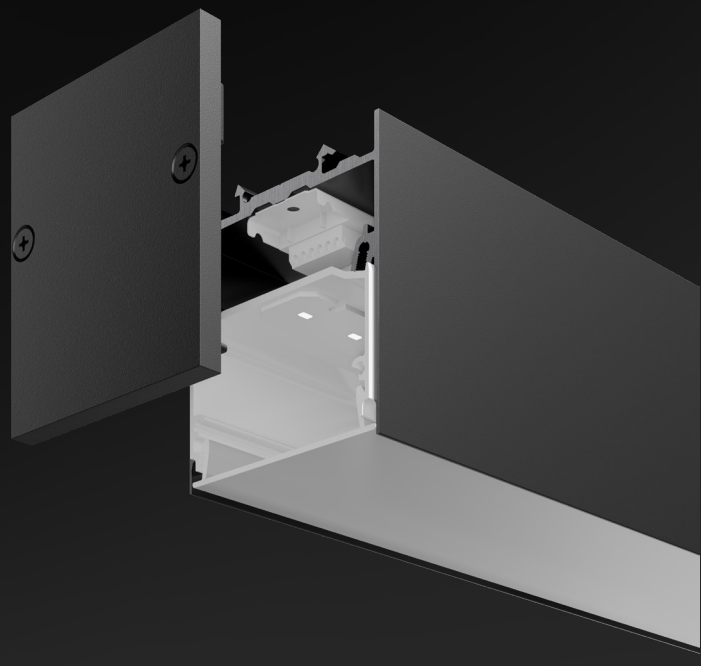

Beautiful, optimised light.

Our speciality is optimised light that combines with your life - beautifully. We have battle-tested everything down to the brackets and fittings to ensure the best light output for any possible configuration.

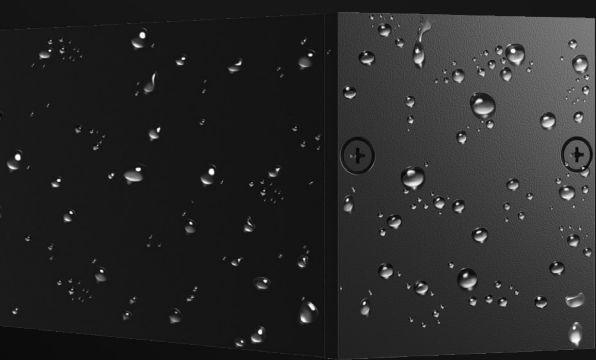

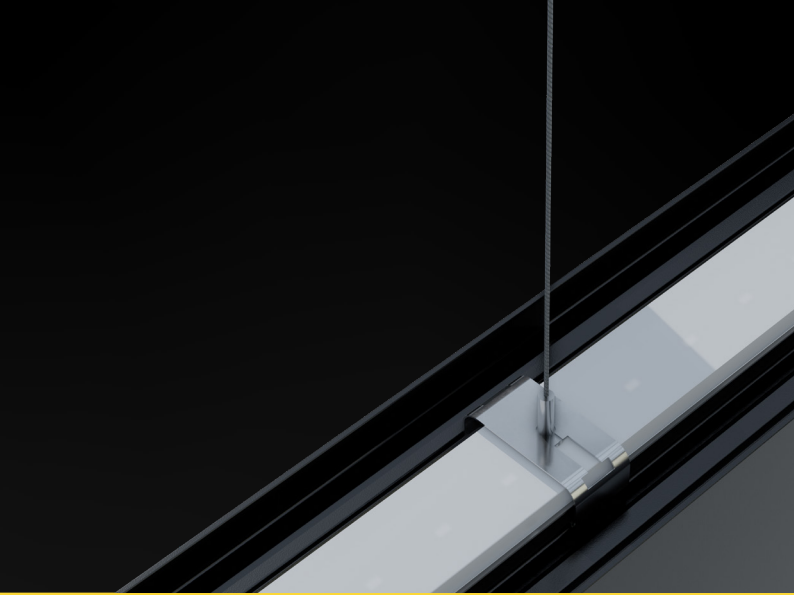

Engineered to achieve our specific blend of white, the **light chamber** scatters and reflects light, allowing for a beautiful, evenly lit diffuser, irrespective of the selected external finish. It also enables the Ligera Range to reach efficient, benchmark-setting outputs, achieving more for less.

Exceptional brightness is guaranteed - Ligera uses **new high quality 5th generation LED boards and drivers**. Ligera end-caps are able to **eliminate any diffuser gaps at either end**.

Effortless Installation

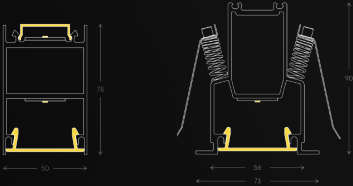

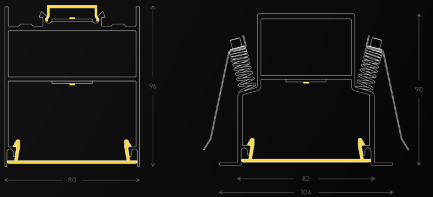

Suspended or surface mounted, the Ligera comes with **easy to use clip-on brackets** that do not require internal access to the profile to install, **mitigating the risk** of damaging internal components and **speeding up the entire installation process**.

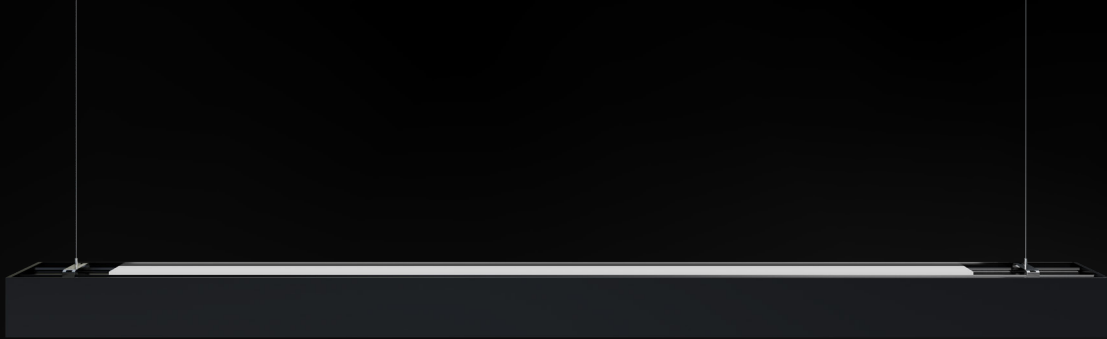

Extra protection

In certain environments, luminaires can be exposed to moisture, dust or accidental contact. That's why we offer the **IP55 rated variant**, for extra defence against the elements.

Quality without compromise

	Ligera 50	Ligera 80
Line Drawing		
Mounting	Wire Suspended Rod Suspended Surface Mounted Wall Mounted Recessed	
Flux Range *Subject to configuration	550 to 4230 Lm/m	630 to 4440 Lm/m
Power Consumption Range *Subject to configuration	5.0 to 42.5 W/m	5.0 to 39.0 W/m
Luminous Efficacy *Subject to configuration	Up to 109.2 Lm/W	Up to 124.9 Lm/W

Fulfil your lighting vision

Make a splash without going over budget. Ligera comes with **direct and indirect** options.

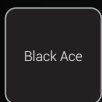

The Ligera range comes in **80mm, 50mm, & 16mm** to fit a wide range of project designs. Carefully selected black, white and silver **colour options** complement and enhance the finish.

On time and on point

Modularity means **faster lead times** – without sacrificing quality. Our precision CNC machines keep your project on time and on spec.

LIGERA 16

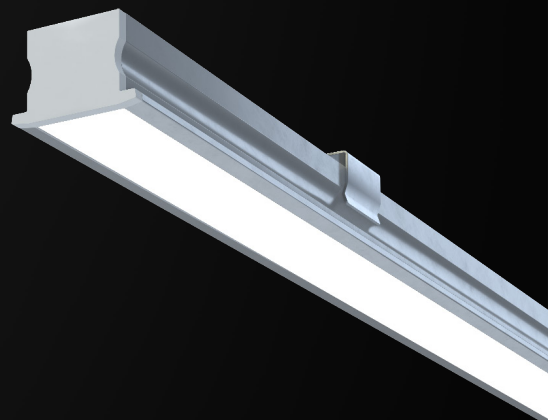

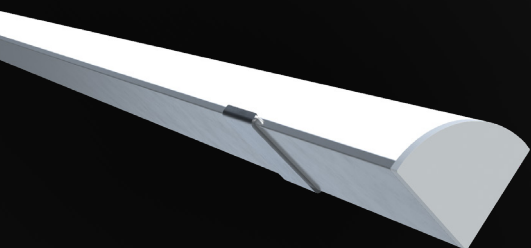

Even small detail matters. Liger 16 offers an economic way to deliver specific colour temperature and a variety of profiles to even the smallest corner of your spatial experience.

Options for every angle

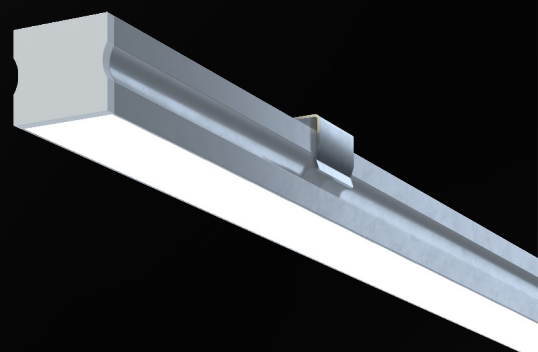

Celebrate the lines of your design with **3 distinct profile variants**.

Whether it's **surface mounted** or starring in small **recessed** gaps, Liger 16 fits small spaces - and smaller budgets - with beautiful, high quality light.

Enlarge and enliven your space with Liger 16's **corner profile**.

Installation in a snap; Liger 16's brackets **make installation faster and easier**.

Life is full of colour, so is light.

White, Tunable White, and RGB choices give you the power to set the tone and personalise the light temperature of your space.

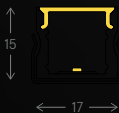

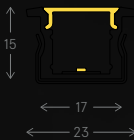

Exceed expectations

High quality components and intelligent design combine so objects reflect their true colour with a CRI of 90+.

Adapt to the moment

Your environment has multiple uses; dictate the amount of light with Ligera 16's optional dimming feature.
